The Democratic party in national con vention assembled adopts the following declaration, to the end that the people of the United States may both realize the achievements wrought by four years of Democratic administration and be ap prised of the policies to which the party is committed for the further conduct of hatlonal affairs.

Record of Achievement.

We indorse the administration of Woodrow Wilson. It seaks for itself. It is the best exposition of sound Democratic policy at home and abroad.

We challenge comparison on our rec ord, our keeping of pledges and our con-structive legislation, with those of any

We found our country hampered by special privileges, a violous tariff, obsolete banking laws and an inelastic currency. Our foreign affairs were domi-nated by commercial interests for their welfish ends. The Republican party, de-spite repeated pledges, was impotent to correct abuses which it had fostered. Under our administration, under a leader-ship which has never faltered, these abuses have been corrected and our peo-ple have been freed therefrom

Federal Reserve Act.

nOr archaic banking and currency sys-tem, prolific of panic and disaster under Republican administrations—long the refuge of the Money Trust-has been supplanted by the federal reserve act, a true democracy of credit under government control, already proved a financial bul-wark in a world crisis, mobilizing our resources, placing abundant credit at the disposal of legitimate industry and mak-ing a currency panic impossible. We have created a federal trade com-

mission to accommodate the perplexing questions arising under the anti-trust

The reforms which were most obvi ously needed to clear away privilege, pre-vent unfair discrimination and release the energies of men of all ranks and advan-tages, have been effected by recent legislation. We must now remove, so far as possible, every remaining element of un-rest and uncertainty in the path of the business men of America, and secure for them a continued period of quiet assured and confident prosperity.

Tariff. We reaffirm our belief in the doctrine of a tariff for the purpose of providing sufficient revenue for the operation of the government economically adminis-tered, and unreservedly indorse the Underwood tariff law as truly exemplifying

We recognize that tariff rates are nec essarily subject to change to meet certain changing conditions in the world's production and trade. The events of the last two years have brought about many momentous changes. In some respects their effects are yet conjectural and wait to be disclosed, particularly in regard to our foreign trade. Two years of a war which has directly involved most of the chief industrial nations of the world, and which has indirectly affected the life and industry of all nations, are bringing production and trade. The events of the industry of all nations, are bringing about economic changes more varied and reaching than the world has ever be-

fore experienced.

In order to ascertain just what these changes may be, the Democratic con-In order to ascertain just was changes may be, the Democratic congress is providing for a nonpartisan tariff commission, to make impartial and thorough study of every economic fact that may throw light either upon our past or upon our future fiscal policy, with regard to the imposition of taxes on imports, or enable of these the federal government, wherever it acts as the employer of labor, should both on its own acount and as an example, put into effect that in the conservation of these the federal government. upon our future fiscal policy, with regard to the imposition of taxes on imports, or with regard to the changed and changing conditions under which our trade is carried on. We cordially indorse this timely proposal, and declare ourselves in sympathy with the principle and purpose of shaping legislation within that field in accordance with clearly established facts, rather than in acordance with the demands of selfish interests, or upon information provided largely, if not exclusively, by them. gively, by them.

That part that the United States will play in the new day of International relationships which is now upon us will depend upon our preparation and our character. The Democratic party therefore recognise the assertsol and triumphant demonstration of the indivisibility and coherent strength of the nation, as the whole world faces the crisis of manifold changs, it summons all men of whatever origin or creed, who would count themselves Americans to join in making clear to all the world the unity and consequent power of America.

Whoever, actuated by the purpose to promote the interest of a foreign power in diaregard of our own country's welfare or to injure this government in its foreign relations or cripple or destroy its industries at home and whoever by arousing prejudices of a racial, religious or other nature, creates discord and strife among our people so as to obstruct the wholesome process of unification, is faithless to the trust which the privileges of citizenship repose in him and disloyal to his country.

We therefore condemn as subversive of this nation's unity and integrity, and as destructive of its welfare, the activities and designs of every group or organization, political or otherwise, that has for its object the advancement of the interest of a foreign power, whether such object is promoted by intimidating the government, a political party or representatives of the people, or which is calculated and tends to divide our people into antagonistic groups, and thus to destroy that complete agreement and solidarity of the people and that unity of sentiment and national purpose so essential to the perpetuity of the nation and its free institutions.

among a limited number exist, and have
been instigated for the purpose of advancing the interests of foreign countries

Along with the proof of our character nation must go the proof of ou as a nation must go the proof of our power to play the part that legitimately belongs to us. The people of the United States love peace. They respect the rights and covet the friendship of all other nations. They desire neither any additional territory nor any advantage which will not be peacefully gained by their skill, their industry or their enterprise; but they insist upon having absolute freedom of national life and policy. solute freedom of national life and policy, and feel that they owe it to themselves and to the role of spirited independence, which it is their sole ambition to, play, that they should render themselves secure against the hazard of interference from any quarter and should be able to protect their rights upon the seas or in any part of the world. We, therefore, favor the maintenance of an army fully adequate to the requirements of order, of safety and of the protection of the nation's rights, the fullest development of modern methods of sea-coast defense and the maintenance of an adequate reserve of citizens trained to arm and prepared to safeguard the people and the serve of citizens trained to arm and prepared to safeguard the people and the territory of the United States against any danger of hostile action which may un-expectedly arise, and a fixed policy for the continuous development of a navy worthy to support the great naval tradi-tions of the United States.

tariff, adequate for revenue under peace conditions, and fair to the consumer and to the producer.

We have adjusted the burdens of taxation so that swollen incomes bear their equitable shares, Our revenues have been sufficient in time of world stress and will largely exceed the expenditures for the current fiscal year.

We have lifted human labor from the extegory of commodities and have secured to the workingman the right of voluntary association for his protection and welfare.

Parcel Post System.

We have advanced the parcel post to genuine efficiency, enlarged the postal savings system, added 10,000 rural delivery routes and estensions, thus reaching two and one-half millions additional people.

The program for the petition filing and the evening rally was prepared by the citizens of the capital, and hearty welcome was extended to all Missouri Republicans, Democrats, Socialists and Progressives who attend-

ed the exercises. Samuel Rosenfeld, a member of the St. Louis board of freeholders, and chairman of the Gardner land bank petition committee, had charge of the filing of the petition, and was assisted by C. O. Raine of Canton, representing the Farmers' State Grange; Hon. Noah W. Simpson of LaBelle, representative from Lewis County, who fostered the land bank bill in its passage through the house; Senator Anderson Craig of Maryville, who stood sponsor for the act while it was in

the senate. The huge petition has a little over 45,000 names when only 30,927 were required to place the proposed constitutional amendment on the ballot for the November election. Every county in the state is represented by at least three or four petitions. Jasper county came forward with a total of 56 petitions of 50 names each. The fourteenth congressional district furnished 4,670 signatures; the fifth 4,-525, and the fifteenth, 4,130.

Road Bond Protest Answered.

An answer has been filed in the supreme court at Jefferson City by Assistant Attorney General Rutherford in the mandamus suit brought by Prosecuting Attorney Ralph of St. Louis County to compel the state auditor to register the \$3,000,000 road bonds recently voted by that county. Following the filing of this answer Ralph filed a motion which he hopes will forestall the intention of Thomas Skinker, a lawyer, to carry the validity of the bond issue to the supreme

court. Ralph asked to have Skinker's answer, previously filed as an individual taxpayer, attacking the constitutionality of the law, stricken from the court record, on the ground that Mr. Rutherford's answer, in behalf of all the taxpayers of the county and state, covered every point raised in Skinker's complaint.

Paroles Issued.

Governor Major last week issued 16 paroles and one commutation to men serving time in the penitentiary. J. M. Struble, convicted in St. Joseph in November, 1913, for burglary, and sentenced for three years, was the beneficiary of the commutation which he won by his knowledge of electricity. He prepared the plans for the electric wiring of the new prison cell house, and worked faithfully on the job. He was released on June 23.

Not Placed in Nomination. At the recent Democratic convention held in St. Louis, the name of Elliot W. Major was not presented as a candidate for the vice-presidency. This was not exactly as originally intended, but the governor's advisers seeing the unanimous sentiment in favor of the present incumbent urged his withdrawal. Before his name was withdrawn, however, and even before ts presentation, Mr. Marshall had been renominated.

River Improvement.

One section of the new Democratic platform pledges the party to a continuation of the policy of river improvement, said to have been a Democratic measure. The central part of this state would be greatly benefited if the Missouri were made nevigable at all stages and the doctrine of flood control would help the southeastern section of the state beyond belief. It is to be hoped that alleged "pork" fighters will not have sufficient influence to block these needed improvements. Only a government survey would be able to specify how many acres of the finest land in the world would be saved to agriculture.

Bumper Grain Crops

Good Markets-High Prices Prizes Awarded to Western Canada for Canada's wheat and other grains, is the excellence of the cattle fed and fattened on the grasses of that FARMS TON

Wheat, Oats, Barley, Alfalfa and Grasses The winnings of Western Canada at the Soil Products Exposition at Denver were easily made. The list comprised Wheat, Oats, Barley and Grasses, the most important being the prizes for Wheat and Oats and sweep stake on Alfalfa. No less important than the splendid quality of Western

country. A recent shipment of cattle to Chicago topped the market in that city for quality and price Western Canada produced in 1915 one-third as much wheat as all of the United States, or over 300,000,000 bushels.

Canada in proportion to population has a greater exportable surplus of wheat this year than any country in the world, and at present prices you can figure out the revenue for the producer. In Western Canada you will find good markets, splendid schools, excep-tional social conditions, perfect climate

and other great attractions. There is no war tax on land and no conscription. Send for illustrated pamphlet and ask for reduced railway rates, information as to best locations, etc. Address Superintendent immigration, Ottawa, Canada, or
